

# AMP 6-Seat Passenger Vehicle

The vehicle is ideal for light work and as a general transport vehicle. A small profile with 6-person capacity makes it perfect for transporting people in congested areas such as industrial estates and college campuses.

All the things you expect to find in a passenger vehicle with a fully enclosed cab, LED headlights and brake lights for additional visibility and security, integrated turn indicators, horn, glass windscreen with wiper, automotive style dashboard, heating, air-conditioning, alloy wheels, wing mirrors and reversing bleeper.

The maintenance free lithium battery pack eliminates messy battery top ups and the on-board charger with 3-pin plug enables opportunity charging as and when you like from any 13amp socket.

- 100% Electric
- Alloy Wheels
- Cab Heater
- Stereo System
- Air Conditioning
- Fully Enclosed Cab
- Lithium battery pack
- Seating capacity 1 Driver & 5 Passengers
